Regarding: Terrorist Raids

Dear Commissioner Cartwright

I was just at a website and found this, this answers allot of your questions at how ISIS – ISIL is radicalising our youth into doing Terrorist Attacks

Please see the following and I quote from within.

Islamic State issued an audio recording on Thursday that it said was by its leader Abu Bakr al-Baghdadi, calling on supporters around the world to join the fight in Syria and Iraq or to take up arms wherever they live.

It was Baghdadi's first message since a number of media reports said that he was wounded earlier this year in Iraq.

In the recording, issued by the group's al-Furqan media outlet and posted on several websites, a voice sounding like Baghdadi's says "There is no excuse for any Muslim not to migrate to the Islamic State ... "Joining (its fight) is a duty on every Muslim.

al-Furqan media outlet, isn't this the Book Shop that closed down?

So lets understand this that means there is recruiters at these mosques, recruiting half wit Muslim Youth to go to these Book Shops and Fringe Groups and while there they indoctrinate these youth by getting them to listen to these rubbish messages

At the end of the day it's a big laugh and joke and its on these Muslims signing up to join up, the Group as the Book encloses proves its being run by a Zionist Jew who was trained by the Israeli Mossad.

Anyway I thought this was important because Reuters now discloses the link on how these nit with Muslim youths are getting radicalised.

Yours truly
Lloyd T Vance
